LIFE IN THE ORIENT

LETTERS FROM ELDER E. E. ANDROSS DESCRIBE HIS IMPRESSIONS OF INDIA

F. A. Coffin, Corresponding Secretary of the Pacific Union Conference, is in receipt of several letters from Elder E. E. Andross, president of the General Conference of Seventh-Day Adventists, now traveling in the Orient on a tour of inspection of missions. One, mailed at Bombasa, British East Africa, was written while on his way from Calcutta, India, to Burma. In it he says he visited every Seventh-Day Advent Mission except one which was so far away in the Himalayan Mountains he couldn't reach it.

"The influenza scourge," he says, "has certainly done its ghastly work in all parts of the world. In Java there were one million deaths from the disease in three months. Though it is a comparatively small island, it is one of the most densely populated countries in the world." He also says that Bombay, Calcutta and other Indian cities suffered extremely. In Bombay as many as 800 deaths occurred daily for a time. Millions died in India of the disease. "We have been very fortunate in escaping," he adds, "although constantly in its presence, and not under the most favorable conditions."

While in Burma he wrote: "I have traveled, including the trip to Rangoon, Burma, about 18,400 miles and in all this long distance have not had an accident nor suffered any loss."

He was in Colombo, Ceylon, Dec. 7, 1918, and left the same evening for Lucknow in North India where the Adventist Church has a large publishing plant and the headquarters of its work in India. From there he went to Mussooree in the Himalayan Mountains, and to Lahore, Delhi, Agra, Benares, Calcutta, East Bengal and other places in India.

In his account of these travels he speaks of the Taj Mahal which has been pronounced the most beautiful building in the world. It is the tomb of the favorite wife of the Shah Je-

(Continued on Page 4)

TELEPHONE RATES IN DENVER

A Glendale citizen is in receipt of a copy of the Denver Post of May 1st which gives information in regard to a telephone increase very similar to what has taken place here. The company is the same and when he left Denver the rates corresponded with the rates here. He assumes they have since kept pace. There the increase has been "put over without notice," as here. But the amount of the increase is nothing like as great. On residence phones of unlimited service an increase of 50c per month has been made. On "measured service" which we out here would call limited service, a raise of 25c per month has been made. But the measured service has been reduced from 1200 calls per month to 960 calls per month. Here the increase has been $1.00 per month for business phones and 75c per month for residence phones in addition to the 10c toll, a change which he thinks does not compare consistently with the Denver increase.

LEAGUE OF NATIONS

FREE LECTURE BY DR. SILAS EVANS OF OCCIDENTAL FOLLOWED BY DISCUSSION

The idea of a community center, where neighbors and friends may gather for public discussion and enlightenment concerning current topics of world-wide interest, is becoming very popular in Southern California.

The University of California Extension will, in the next few weeks, give a great impetus to this movement by sending its own lecturers to the various communities to speak and to lead in the public discussion. This is being done by the University to meet a need, which it believes exists.

The people of Glendale and vicinity are fortunate in having the University Extension send them Dr. Silas Evans, who will address the Community Center audience at the Glendale High School, Tuesday evening, May 6th, at 8 o'clock, to which gathering the public is cordially invited, admission free. Following the lecture there will be an opportunity for public discussion, led by the speaker. The subject of lecture and discussion is "The League of Nations."

This is a subject of outstanding interest at this time and one on which citizens will be glad to be enlightened as well as to discuss with the speaker named.

POLAND'S EXTREMITY

GREAT NEED TO CONTINUE RED CROSS WORK, SAY LOCAL OFFICIALS

To show why it is necessary for Red Cross work to be continued by chapters throughout the United States, reports brought back by the American Red Cross Mission which was sent to Poland are quoted by local officials who say that these reports show that ten thousand persons are dying every week in Poland of typhus and unless isolation, soap and clean underwear can be provided there without delay, cholera and dysentery will follow with the advent of warm weather, and before another winter whole villages will be decimated. Typhus and other forms of disease are said to be especially severe in the coal mining region of Dobrowa where the death rate has jumped from 32 in 1913 to 150 per thousand of population today. Only 20 per cent. of the population of this region is said to be free from tuberculosis.

Of the situation Professor Vernon Kellogg, member of the United States Food Administration, said:

"It will take a year to put Poland on her feet. There are at least 5,000,000 people scattered over 10,000 square miles, who are worse off than were the Belgians, because they have been without any help whatsoever for four years. They are absolutely dependent on the Allies for food, clothing, hospital supplies and medicines, and I believe the Allies have no more important duty than to hasten all available assistance. We have shipped in 80,000 tons of food-stuffs, but that is not enough. We must send in that quantity every month."

FAREWELL TO DR. POWELL

Following the regular evening service at the First Baptist Church of Glendale a social half hour will be held as a farewell for Dr. T. L. and Mrs. Powell, who are leaving Tuesday for Chicago. Dr. Powell, who is a professor in Colgate University, New York, has been officiating as pastor of the church during the greater part of his stay in Southern California, and has made warm friends here, who part with him with regret. It is expected that special harp solos will feature the musical service Sunday evening.

BIRTHDAY SURPRISE

A dainty surprise birthday luncheon was given Mrs. Robert Thistlewhite by her daughter, Gladys Thistlewhite, and her chum, Miss Mildred Wright, at her home on Saturday, May 3d. A profusion of beautiful flowers of delicate hues beautified the home. Invited guests were: Mrs. G. Wright, Mrs. W. Peart, Mrs. J. Schremp, Mrs. O. R. Barnett, Mrs. E. Dennison, Mrs. G. Caldwell, her mother, Mrs. Nelson, and Mrs. Partridge from Shasta.

PRESBYTERIAN CHURCH

I pledge allegiance to the Cross and to my Savior for whom it stands; to the kingdom of God, eternal, everlasting in the heavens, to which I journey. Amen.

Elders and Deacons

The names of the following elders were called for re-installation at the Sunday morning service at the Presbyterian Church: H. H. Schumaker, A. E. Hennon, R. P. Isitt, R. A. Petersen and H. L. Finlay.

Deacons were ordained as follows: J. K. Gilkerson, W. E. McCormick, A. F. Van Ornum and Roy Van Kolken; and the deacons re-installed were V. E. Skiles, Henry Lawrence, G. B. Porter and W. T. Booth.

A preparatory sermon preceded the special service of installation and ordination.

ITALIAN DELEGATES RETURN TO PARIS

FIUME MAY BE OPEN PORT FOR THREE YEARS UNDER LEAGUE WHILE NEW PORT IS BEING MADE

(Special Service to Glendale Evening News)

Paris, May 5.—The Italian ambassador informed French Foreign Minister Pichon this afternoon that the Italian delegates are returning to Paris. He said Premier Orlando and Sonnino will leave Rome tonight and reach Paris Wednesday.

It is authoritatively learned that the "Big Three" are considering making Fiume a free port under the League of Nations for three years while a new port for Jugo-Slavia is being constructed.

A Rome dispatch today said that at a mass meeting the citizens of Zara, Dalmatia, proclaimed the annexation of their city to Italy.

An authoritative source declared today that Marquis Imperiali, Italian ambassador to England, will attend the first business meeting of the League of Nations this afternoon. It was pointed out that while the return of the Italian delegates does not positively assure Italy's immediate resumption of her place at the peace conference, it is believed that resumption will follow because it is understood that an acceptable compromise has been framed, both Italy and the "Big Three" having adopted a conciliatory attitude.

I. W. W. MEET IN CHICAGO

CONVENTION SCHEDULED TO LAST TEN DAYS MAY BE ENDED SOONER BY AUTHORITIES

(Special Service to Glendale Evening News)

Chicago, May 5.—About one hundred delegates attended the convention of the Industrial Workers of the World opening this morning. The sessions were executive, police, detectives and federal agents being the only non-members attending. Delegates were guarded in their utterances and detectives yawned during the opening formalities.

The session is scheduled to last ten days, but may end sooner. The city council is considering a resolution forbidding the meeting being held in Chicago. Police reserves were held in readiness in case of disturbances.

SAFE CONDUCT FOR IRISH DELEGATES

COL. HOUSE INFORMS IRISH-AMERICAN DELEGATION THEY WILL BE PROTECTED EN ROUTE TO PARIS

(Special Service to Glendale Evening News)

Dublin, May 5.—Frank P. Walsh, a member of the Irish-American peace delegation, has told a representative of the United Press that Colonel House notified the delegation that safe conduct to Paris would be given official Irish delegates. It is said that Lloyd George wants to see five Irish delegates go to Paris.

SECRET DISCUSSION OF GERMAN TREATY

(Special Service to Glendale Evening News)

Paris, May 5.—It was announced here today that a brief secret plenary session of the peace conference would be held tomorrow to discuss the completed German peace treaty. Authoritative information now is that the Germans will get the treaty Thursday. The Allies have accepted credentials of the German delegation and the Germans have accepted the Allies' credentials. It is understood that the treaty is now completed and in printer's hands.

Immdiately after the presentation of the German treaty, Austrian negotiations will be started. A Vienna dispatch via Basle said the Allies had requested the Austrians to come to St. Germain on May 12.

A Brussels dispatch said the Belgian Crown Council voted unanimously favoring signing the peace treaty with Germany.

FAVORABLE VOTE ON SUFFRAGE ASSURED

(Special Service to Glendale Evening News)

Washington, May 5.—Militant suffragettes have announced that a solid suffrage vote is assured for the coming session of Congress. It is said that nineteen states will have delegations there favoring suffrage.

NAVY PLANES DAMAGED BY FIRE

(Special Service to Glendale Evening News)

New York, May 5.—Fire has damaged two navy seaplanes entered for trans-Atlantic flight, but announcement is made that this will not delay the start, which is scheduled for noon tomorrow. An electric spark which ignited the gasoline caused the fire.

CONVICTED L. A. PUBLISHERS REFUSED REVIEW OF CASE

(Special Service to Glendale Evening News)

Washington, May 5.—The supreme court today declined to review the case of Enrique Flores Magon and Ricardo Flores Magon, convicted under the postal laws for articles published in the newspaper "Regeneration," of Los Angeles.

Enrique and Ricardo Magon were convicted during the war of publishing alleged anarchistic propaganda in their paper. Both are serving sentences in McNeill's Island penitentiary. The paper has suspended publication.

OPTIMISTIC VIEWS

REV. COLE OF CENTRAL CHRISTIAN CHURCH SEES HOPEFUL OUTLOOK FOR CHURCH

Two highly optimistic sermons were preached by Rev. Clifford A. Cole, in the Central Christian Church yesterday. The morning subject was "The Church and America," treating of the important place this country holds in the world's affairs and quoting the familiar saying, "As America goes so goes the world." He spoke of the great opportunity the church now has in America, which is just emerging from a war undertaken for purely unselfish purposes. The church has taken a very important part in this war, out of which God will work His purpose of regenerating mankind. The church should grasp the God-given opportunity to advance the cause of Christ and in this work America must take the lead as she is comparatively untainted with the infidelity and the false conception of the Christ, or the complete ignoring of Him which has contaminated so much of the Old World thought.

The evening sermon on "The Church and Today" was along the same lines as the morning discourse, but with a broader scope. The speaker referred to a statement made by Theodore Roosevelt in an address delivered in Wichita, Kansas, that world history was divided into three eras, the Mediterranean, up to Columbus' discovery of America, the At-

(Continued on Page 3)

MAY DAY DANCE FOR FREDERICK BAKER

Mrs. Frederick Baker of 409 North Maryland avenue entertained about ten young people, friends of her son, Frederick, Friday evening, with a dancing party. Frederick is leaving in the near future for the East where he will pass the summer with his uncles and cousins. He has never completely regained his health since he had the influenza and will try the effect of a change of climate. As he will probably spend a part of the time at summer resorts on Lake Michigan a very good time for him is in prospect.

The Baker home was beautifully decorated with May baskets filled with roses. The screen porch, with screens well disposed and illuminated with Japanese lanterns, was reserved for the punch table, and the parlors with rugs removed provided a fine dancing floor.

The climax of the evening's enjoyment was reached when Miss Cecilia Gillespie, of Los Angeles, executed a spring song dance. She was then crowned with a wreath of roses and casting strands of gaily-tinted serpentine paper over a wire above her head the young people wound her up in the strands, a pretty modification of the Maypole Dance. At the close of the evening ice-cream and cake were served by the hostess, the party breaking up about midnight.

SOLDIERS' BONUS

The Glendale Red Cross is spreading the information regarding the provisions of the new Revenue Bill for a $60 bonus to be paid to all soldiers and nurses discharged since April 1, 1917.

As many soldiers were discharged prior to the passage of the bill, the War Department is anxious that information regarding the bonus should be disseminated as widely as possible. Those who are discharged hereafter will receive this bonus on the same roll or voucher upon which they are paid their final pay.

The Home Service section is prepared to help men and nurses entitled to the bonus to secure it.

ENJOYING VACATION FROM MILITARY DUTIES

Lieut. Don H. Packer is greatly enjoying his month's leave, which he is spending quietly at home with his parents and sister Doris. He hopes to receive his discharge ere long. Don is one of the boys Glendale is especially proud of, as he went in as a private and won his successive promotions by sheer hard work and close attention to every duty.

MAY DAY BOX SOCIAL

A very successful box social was enjoyed by members of the Lutheran Church Thursday evening at the home of Alvin Esterly, 703 South Adams St. About 30 were present. There was no set program, just an informal social evening of games. Fred Hoffman made an excellent auctioneer of the boxes, from which $21 was realized. In deference to May Day they were quite elaborately decorated.

HELMET AS REWARD

HUN HEADGEAR TO BE BESTOWED ON BIGGEST SUBSCRIBER TO VICTORY LOAN

In the window of the headquarters of the Victory Loan on Brand boulevard, just north of the Postoffice, is a German helmet. This Hun head covering was one of a lot stored by the Germans behind the lines not far from Paris which were to be worn by the victorious German troops when they marched into Paris. The world knows, and the Germans know it more bitterly that they did not march into Paris and the helmets fell into the hands of American troops when they captured the territory. This particular helmet is to be given as a reward to the Glendale resident who makes the largest subscription to the Victory Loan.

Also on exhibit at the headquarters are medals which will be bestowed on workers in the drive. These medals have been cast from German cannon captured by American troops.

While it is safe to say no Glendale patriot would subscribe for the sake of the reward, it is a pleasure to know that the liberal subscriber will be thus remembered by the government, and that workers will have tangible evidence of services rendered.

Four-minute speeches are to be made by good orators every night this week at the Palace Grand on behalf of the drive.

BOTTLE DRIVE BY COLORADO SCHOOL

L. T. Rowley, chairman of Salvage for the Red Cross, reports a really wonderful drive for bottles which has just been put through by the Colorado School. Nearly sixteen hundred were gathered, thoroughly washed, sorted and boxed ready for shipment. He says it is one of the finest school drives the department has had since he has been connected with it and he is planning to sell the consignment by itself that he may be able to tell the boys and girls of that school just what it brings.

Mrs. Calvin Whiting has just returned from Oakland, where she attended, as a delegate from the Tuesday Afternoon Club of Glendale, the first Convention of the Federated Music Clubs to be held in the state. It was a very fine convention and well attended.

DR. THOMASON TALKS

WAR HAS INCREASED TUBERCULOSIS AND PROMOTED USE OF HARMFUL DRUGS

That science has given ample proof of the correctness of the principles of health reform and the simple, rational methods for the treatment of disease enunciated by Seventh-Day Adventists more than 40 years ago, was the statement of Dr. George Thomason, a member of the faculty of the White Memorial Hospital of Los Angeles, who spoke at the Glendale Seventh-Day Adventist Church, Wilson avenue and Isabel street, at the regular service last Saturday morning.

Dr. Thomason said one of the results of the war had been an increase in tuberculosis, and told of the visit to Los Angeles of Dr. Noff, of New York, one of the most eminent authorities on tuberculosis in America, sent out as a representative of the government to counsel with physicians as to the best means of combatting this disease and preventing its spread. "While speaking to the Los Angeles County Medical Society Dr. Noff occupied more than an hour, and spent the entire time in demonstrating to the medical fraternity simple methods for treating tuberculosis," said Dr. Thomason. "He showed how to administer simple hydrotherapy, emphasized the importance of massage, and of rational diet, and out-of-door living. It was as though Dr. Noff were reading from instruction given to Seventh-Day Adventists through Mrs. E. G. White more than 40 years ago, but which at that time was scoffed at by physicians.

"I well remember attending in Washington, D. C., years ago, a meeting of the American Planatological Society, where physicians were gathered for the dicsussion of the treatment of tuberculosis. Dr. J. H. Kellogg, at that time connected with the Adventists, read a paper which emphasized hydrotherapy, massage, out-of-door life and simple diet. We were ridiculed in that meeting, and soon after we returned to Battle Creek, Mich., Dr. Kellogg received a letter from the secretary of the sosiety which said that since Dr. Kellogg's methods were so radically different from those of the members of

THE TELEPHONE SITUATION

(Contributed)

To clear the atmosphere a little, it seems to me that a few things should be said concerning the telephone situation in Glendale which have not been brought out to my knowledge.

In behalf of the Pacific Telephone Company, it must be said that up to the time when we went into war and help was demoralized, our phone service was as good as we had any right to expect, especially as we were getting it at a rate probably the lowest in the United States, considering the fact that we had free access to an exchange of 100,000 phones. The fact is, we were getting it at or below cost, unless the company was robbing the people of Los Angeles, because they were paying about 50 per cent more for the same service. Certainly we cannot expect to have a lower rate for exactly the same thing, and must be willing to pay as much as is charged in Los Angeles.

If the company had made our charge the same as theirs, giving due notice and the reasons therefor, I do not believe there would have been any trouble at all. It is the methods pursued by the phone company which have aroused such indignation that there threatens to be a rupture disastrous alike to the company and the public.

When we analyze the reason for our having received such a low rate, we must conclude that it was for the purpose of securing a monopoly on the business in Glendale by buying out the competing company. Just at that time, the necessity of the government having to control all public utilities gave the phone company the opportunity it was seeking, of raising the rates all over the country, by reason of the confusion in the matter of jurisdiction, a commission of some kind having supervision of the rates in most of the states. The State Railway Commission in California immediately put a quietus on the whole proposition when it was attempted in Glendale, because Mr. Burleson's department would not, at that time, authorize the charges. It seems, however, that Burleson has since assumed the rate-making power, and has authorized the phone company to make the proposed raise in rates, and also to institute a toll charge on towns and cities such as Glendale, which heretofore have had free service.

Our able and ever-alert City Attorney, Mr. Evans, has been on the job ever since this proposed raise has been in the air, and we may be sure he will do all that can be done to protect our rights and interests. He tells us that our contract with the phone company contemplates no toll charge of any kind to Los Angeles, and it is so interpreted by the State Railway Commission. Such being the case, there is no doubt that the matter will be straightened out satisfactorily as soon as it can get back into the hands of the commission where it rightfully belongs.

The decision of Judge Landis in Chicago gives every reason to hope that the United States Supreme Court, which will give the case its hearing this week, will decide that the taking over of the wires of the country for use in war does nto carry with it the authority to make rates. If such a decision is rendered our toll charge will be knocked out at once because an injunction would be issued by the Railway Commission.

If the Supreme Court decision is otherwise, let us hope that Burleson will not sustain the toll charge when he is fully advised as to the facts, or if he does sustain it, that it can be knocked out by the courts. Finally, from the fact that Burleson is already giving up control of the cable lines, it is reasonable to presume that he will soon relinquish the phone systems, also. When that is done our rights will, no doubt, be secured.

In the meantime, let us follow Mr. Evans' advice, use the Los Angeles lines as little as possible and pay the toll under protest. If it becomes necessary, in order to get justice, to have our phones removed and organize a municipal telephone company, let us take concerted action instead of individual. If the trouble is finally adjusted, people who have taken hasty action may be caused extra trouble and expense in having their phones put back.

Considering the interdependence between the public and the phone company, it does seem that they are using very poor business judgment in arousing the enmity of all of their patrons, not only by trying to put over something contrary to their agreement, such as this toll charge, but by doing it without any previous notice and at the same time increasing the monthly rate in the same way. It is not so much what they have done but the way they have done it which has put the people of Glendale into a frame of mind where they will have justice or fight.

SHIPBUILDING STRIKE OVER

(Special Service to Glendale Evening News)

San Pedro, May 5.—Five thousand striking shipbuilders at this harbor will resume work tomorrow.

MORNING BATH VICTIM OF H. C. L.

(By United Press)

TOKYO (By Mail).—Another institution to go down before the high cost of living Juggernaut is the public morning bath which has been the pride of Tokyo for centuries. The institution of the public bath began during the Tokuwaga regimen and became a sort of social club for workmen. The typical Yedokko, or inhabitant of Tokyo, prided himself on going to his morning bath and plunging into the boiling water, all the time feigning indifference to pain by humming a popular tune.

The Japanese bath used to offer the cheapest form of recreation, and all workers had their daily baths for a sen or two. The charge was raised to four sen about a year ago, on account of the high price of fuel, and, as the price of fuel has continued to soar, bath-house keepers recently proposed a further rise to five sen. This the metropolitan police refused to sanction, and the bath-house keepers retaliated by discontinuing the morning baths altogether.

ONE THOUSAND BILLION LOCUSTS HERE SOON

(By United Press)

COLUMBUS, Ohio, May 5.—One thousand billion of 'em will be here in a couple of weeks.

Great swarms of 17-year locusts, released from nearly two decades of sound slumber, will swoop through the air for a month or so, infesting field, orchard and forest, and then will die.

Professor Raymond C. Osburn of the department of entomology at Ohio State University and government scientists predict that the periodical visit of the locust swarm will be made sometime in May.

"It depends a great deal on the temperature," Prof. Osburn said. "If it gets really warm the locusts will appear sooner."

The cicada septendecim is a wonderful creature. For 17 long years it sleeps in dark holes in the earth —then comes to life. Its visits are tabulated with accuracy by entomologists and farmers and horticulturists have been warned of the onslaught.

There should be no occasion for unusual alarm, however, at the appearance of the locust swarms, Prof. Osburn declared. Little damage will result, if proper precautions are taken.

CAMPAIGN ON FOR AMERICANIZATION

(By United Press)

WASHINGTON, May 5.—The real melting pot of the United States seems to be Monessen, Pa., where the steel industry thrives, according to the Bureau of Naturalization's figures.

Eighty per cent. of the population —the largest of any city in the country—is of foreign birth. Practically every racial division and nearly all of the larger countries are represented in the small town.

Monessen, however, is fast cutting down this percentage, as the result of an Americanization campaign. A member of each nationality has been appointed by the steel companies and the Department of Labor to make all of them real American citizens. Friendly rivalry has grown up among the various races as to which will be the first to be 100 per cent. American.

A FEW LAUGHS IN FOREIGN NEWS

(By United Press)

LONDON—Through four and a half years without a scratch, Private Frank Snelling, was killed by swallowing his false teeth while on leave.

LONDON—That Jazz dancing is not a recreation, but an epidemic nearly as serious as influenza, was the opinion of the Leicester Council, which however decided to allow Jazz-dancing in the public parks.

LONDON—Over 1,500,000 women in Great Britain will be unable to find husbands, according to statistics enumerating the proportion of males to females in the country.

LONDON—For tree planting in Scotland, to replace war ravages, half a ton of seeds have been shipped by the Canadian government.

LONDON — Season tickets are among the inducements being offered by housewives to attract servants. Satisfactory results are claimed.

GIANTS WIN BALL GAME

The ball game today on Intermediate Field was between the Giants and Tigers. Tommy Morgan pitched for the Giants and Henry Ford for the Tigers. In the third inning Gordon Richardson took the pitcher's box. Tommy Morgan made a home run in the fourth inning which tied the score 4 to 4. The game was a very exciting one and four innings were played, the score at the end standing 5 to 4 in favor of Giants. Mr. Blanford umpired.

BASLE—The Bolshevik School Commissioners have decreed that all pupils of fifteen years of age and over may marry and divorce at will, according to a Swiss refugee from Paris.

COLOGNE—Failure to hand over Spartacans accused of distributing Bolshevik literature among the British troops has cost the town of Solingen a $250,000 fine.

WEATHER FORECAST: Fair except cloudy or foggy tonight and in the early morning near the coast.

S. W. Shaull, who recently sold his pretty home at 1733 San Fernando Road, is moving with his daughter Ethel to the house on West Eulalia street which was built by Burt Richardson.

Mr. and Mrs. A. W. Dickinson of 220 North Central avenue entertained at a dinner party in the Elks' Club cafe recently Mr. and Mrs. Frank Jerome Bingham of Los Angeles.

The Red Cross Auxiliary which has been meeting in the Municipal Building, at the corner of Brand and Los Feliz Road, has received orders to demobilize the last week in May and is closing up its work.

The Kensington Club realized $23 as the proceeds of the dinner served Thursday evening at G. A. R. Hall by Mrs. Jennie Phillips, assisted by Mesdames Hammond, Hibbert, Denny, Gillette and Ripley. Syringas and roses were used for the effective decoration of the tables and the affair proved a most enjoyable social event.

L. T. Rowley went to Pasadena today to meet the overland troop train of the Santa Fe on which he expects to find his son, Robert Rowley, who expected to be discharged from service and en route for Los Angeles at this time. Mr. Rowley was disappointed, however, as Robert was not on the train.

Mrs. A. H. Dibbern of 208 West Lomita avenue arrived at home Sunday morning from a few weeks' visit with friends in Alameda. Her cousin, Mrs. Clarence Dibbern, of Berkeley, accompanied her to join her husband, who has secured a position in Los Angeles. They will spend a month or more with the A. H. Dibberns.

Victor Carr, son of Mrs. A. B. Carr of 518 Sycamore Canyon Road, returned Friday from France. He was with the 328th Field Artillery and saw active service for several weeks in the Toul sector during the last offensive. He returned in fine health and has already been offered his old position in the Southern Pacific mechanical department, to which he will return in a couple of weeks.

Mr. and Mrs. James Graham of 200 East Dryden street, Glendale, entertained a number of out-of-town friends and relatives Friday evening, May 2d, in honor of their son, Frank Littell, who has recently returned from France. One of the guests, Mr. Francis Gordon, from Pittsburg, Pa., is a cousin of Frank's and has been sojourning in California since November last and likes it so well he thinks he will make it his future home.

O. H. Belew arrived in Glendale from overseas Sunday afternoon and joined his wife at Hotel Victor. They have been separated ten months and are planning to have another honeymoon after several years of married life at Catalina. He enlisted as a mechanic in the 144th Machine Gun Battalion and went to camp on the second day of July, 1918. All the other men of his battalion, except about forty, got to the front, some of them were severely wounded. He was in a training camp when the armistice was signed but is confident he would have participated in an offensive had the war continued until spring as it was expected to do.

Guy Bennett, who injured his knee quite severely during gymnasium practice several weeks ago, is gradually but steadily improving though he is still dependent upon crutches in getting about. He is intensely loyal to his class (the Juniors) and is credited with having more to do with planning its booth exhibit, procession and class yells than any other member and therefore to his effort is due, in some measure, the victory of the class in winning first award for booth and general ensemble. So enthusiastic did he become during the excitement of the Oratorical exercises Friday night that he forgot his knee, sprang up and hurt himself so badly for the time being that he had to be taken out and cared for. It seems not to have been serious, however, as he is considered well enough to attend afternoon sessions at the school this week.

CHRISTIAN ENDEAVOR WORK AMONG SAILORS

Sunday evening a very interesting service was held in the Tropico Presbyterian Church, the fourth in a series of stereopticon lectures exhibiting various phases of the work of the church. Accompanying the views was a talk by John Makin, who for a number of years has had charge of the Christian Endeavor Sailors' Rest at San Pedro Harbor. He showed pictures of the work on the boats and in the harbor, of Christian Endeavor meetings for lumbermen and longshoremen, and for the men on Japanese boats. The talk next Sunday will be on the "Social Aspects of Missions."

GLENDALE COMMANDERY

Glendale Commandery, No. 53, Knights Templar, will hold a Stated Conclave May 5th at 7:30. There will be annual election of officers and business of importance. All members are urged to be present.

CHAS. L. PECKHAM,
Commander.
C. C. RITTENHOUSE,
Recorder.

MAY QUEEN CROWNED

May Day at the Acacia Avenue School was one which will long be remembered by at least 150 women and children who assembled there to enjoy it together. It has been the custom for the past five years for the little folks of the school to choose their own May Queen and her attendants without suggestions from their teachers, and on this occasion the queen was little Edna Fischer, who was charming in white tarlatan trimmed with white satin with a band of little pink rosebuds in the neck, and green butterfly wings.

Promptly at 11:30 the children took their places on the east side of the building and waited for the queen and her procession. iLttle Gertrude McDonald came first, daintily carrying a crown of Cecil Brunner roses. Robert Clewett, Frederick Griggs, Edward Strong, Charles Wendel, Bettie Ziegler and Cedric Keller, dressed as brownies, made chairs to carry the queen and her attendants, who were Marie Claire and Bettie Grant. The maid of honor sang a suitable little song to her queen and crowned her.

The program was simple and childlike, just songs and games. The mothers had a picnic lunch with the children, and it was just one large, happy family.

CHRISTIAN ENDEAVOR MAY PARTY

Friday evening members of the Christian Endeavor Society of the Tropico Presbyterian Church enjoyed a May Day party in the parlors of the church. The Maypole idea was suggested by festoons of crepe paper in green, white and yellow radiating from the center of the social hall, and May Day baskets filled with roses and bloom further developed the May Day thought. Dainty refreshments were served by the committee of entertainment consisting of Sarah Faye Snell, Loys Griswold and Harry Richardson.

BIRTHDAY LUNCHEON

Miss Ida D. Myers of 1607 San Fernando Road entertained with a luncheon Friday complimentary to Mrs. C. M. Hord of South Pasadena and in celebration of her birthday. Cecil Brunner roses were effectively used in the floral decorations and covers were laid for Miss Eva Kerr, Miss Belle Johnston and Mrs. C. M. Hord of South Pasadena, Mrs. A. H. Wheeler, Mrs. H. W. Duncan of Los Angeles, Mrs. H. W. Myers, Miss Harriet Myers and Mrs. W. H. Hillman of Glendale.

NEW OFFICERS OF THURSDAY AFTERNOON CLUB

Because Mrs. Wesley Bullis, who has served the Thursday Afternoon Club of Glendale for the past two years as president, was detained at the bedside of her husband who is ill, the annual meeting of the club which was held at the residence of Mrs. Charles Barker on South Glendale avenue Thursday, was limited to the transaction of necessary business. Officers were elected for the ensuing year as follows: Mrs. E. V. Bacon, president; Mrs. Wesley Bullis, first vice-president; Mrs. A. J. Becker, second vice-president; Mrs. E. L. Richardson, corresponding secretary; Mrs. Joseph Ashton, recording secretary; Mrs. S. E. Brown, treasurer; Mrs. Hal Davenport, Mrs. Charles A. Barker and Mrs. J. L. Wilbur, trustees.

The report of the treasurer was presented and accepted, and after some informal discussion the club adjourned.

Wesley Bullis of South Central avenue has been critically ill for more than a week, but is said to be improving and his friends are hoping his recovery will be rapid.

OPTIMISTIC VIEWS

(Continued from Page One)

lantic, extending from then to the present, and the new era just dawning which, he said, would be the Pacific. Z. T. Sweeney, a noted preacher of the Christian Church, at about the same time echoed this latter sentiment when he stated that the next great world conflict would be on the Pacific Ocean. However this may be, said the speaker, the church must be alert to take advantage of any happening. He read extracts from a magazine article by Alfred Noyes deploring the awful excesses of the Bolshevik in Russia, with the accompanying degradation of woman and stating that the only hope for America escaping being overwhelmed by this propaganda is in the Church of Jesus Christ and it is alert to the opportunity as evidenced by the concerted movement of 21 great Protestant denominations to evangelize the world, the Methodists alone planning to raise $105,000,000 for this purpose and other denominations mighty sums. The minister said the outlook was bright for the church when a secular writer in a secular magazine advanced such views. He deplored the spirit of selfishness prevailing as evidenced by the probability that half the voters of Glendale will likely cast their ballots against the civic center and memorial park which means so much for the young people of Glendale in the way of a place for healthful recreation. The sermon was replete with helpful suggestions and striking statements such as quoted above and held the close attention of all to the end.

NOTICE OF CHANGE OF GRADE

Public notice is hereby given that on the first day of May, 1919, the Board of Trustees of the City of Glendale did at its meeting on said date adopt a Resolution No. 1075 declaring its intention to change and establish the Grade of a portion of Verdugo Road and Lexington Drive (formerly First Street), in said City of Glendale.

Reference is hereby made to Resolution No. 1075 for further particulars of said change of Grade.

LIFE IN THE ORIENT

(Continued from Page One)

han at Agra. Of it Elder Andross says:

"This wonderful building is beyond description. No pen can describe its beauty. I looked upon the magnificent structure of purest white marble inlaid with black, gold, and other colors of marble and with precious stones and pearls and thought of the glory and beauty of the City of God. It gave me a far more vivid picture of what the New Jerusalem will be than I had ever had before."

He also speaks of the palace of the Shah Jehan at Delhi, the winter capital of India, and says there is an inscription in Syriac placed over the south entrance to the throne room which, when translated, reads: "If there is a paradise on earth, O it is this, it is this, it is this!"

He tells of Benares on the Ganges, the seat of Hindooism and Mecca of Mohammedism, and says:

"It is quite impossible for anyone to conceive of what Hindooism really is without having seen it as revealed at Benares. I could hardly have believed that human beings could do what I now know millions are doing every day, and that with the vain hope of securing salvation from their sins. Oh, how India needs our blessed Savior! There are thousands longing for something better than heathenism in any form that can be given them. I know this is true for I have seen many in the villages, especially in East Bengal, whose faces expressed the longing of their souls for deliverance from the bondage of sin and who were panting for help. They eagerly hang upon the words of the speaker. This is true not alone of those who know something of Christianity, but also of those who know nothing but Hindooism. I have been out among the villages, and Brother Mookerjee, our Brahmin Missionary in East Bengal, said there were many who do not know even the name of Jesus."

He also speaks of meeting native believers in East Bengal where there are a number of native churches and speaks of having testimony meetings and believers telling of what God had done for them. Said he:

"When I heard what had been done for them and heard what they had been before they accepted the Gospel, I found myself spontaneously breaking forth in praise to God for His wonderful love in bringing salvation to us and for the assurance that He would soon come again. While it is true that India as a whole has proven to be a very difficult field and we have not seen as large results for the labor put forth there as in other lands, I am fully persuaded there are better days before us in India. There is evidently a great awakening among large numbers of people in this land. I have never seen people more anxious to know the way of life anywhere than the people of East Bengal seem to be. So far as I can discover after visiting every field, the people in the Philippine Islands are no more ready for this message than those of East Bengal and the work appears to be no more promising, granted equal opportunity."

In explanation of this allusion to the Philippines, Mr. Coffin stated that mission work there has been very flourishing and has gone forward rapidly within the past few years, and the denomination now has a large printing plant there. A good printing plant in which a big Miehle press is being installed is being conducted in Java also, and Elder Melvin Munson, son of Elder R. W. Munson, pastor of the Glendale Sanitarium Chapel, is in charge of the Java plant. He and his wife have just moved to Singapore where the publishing headquarters are. While touring the camp meetings of this coast a year ago, Elder Daniels raised a portion of the $10,000 fund required to establish that printing plant, when it was found the budget for the Asiatic field had not allowed for it.

In another letter from Durban, South Africa, Elder Andross writes it was not a part of his original plan to go to Africa, his expectation being to return from India by the Pacific route via Shanghai and the Pacific Coast of the U. S., but the General Conference requested him to visit Africa, so he found a small steamer of 4800 tons and spent 28 days on the Indian Ocean between Bombay and Durban, South Africa. The ships, he says, are very small and quite slow so it takes 24 to 25 days to make the trip. The ship though so small carried quite a large number of passengers, nearly all natives of India, 700 natives en route from Bombay to Mombasa.

On this trip the Elder met Sir George and Lady Barnes. Sir George is one of the eight members of the Executive Council of the Viceroys of the Indian Government. Lady Barnes is a sister of Lord Bulton, Governor of the United States of South Africa.

The Elder now expects to return to Washington by way of London, and to reach the capital some time in July or early in August.

TO WHOM IT MAY CONCERN

Wright & Ecklebarger, doing a grocery business at 108 East Broadway, have contracted to sell their stock and business to Paul J. Kluger and invoice will be taken and said stock and business transferred within seven days from date of first publication of this notice.

PREVENTION OF COLDS AND AND TUBERCULOSIS

500,000 PREVENTABLE PULMONARY DEATHS ANNUALLY—HIGH BLOOD PRESSURE

J. C. Elliott will deliver tonight his noted lecture and "Cause and Cure of Colds, Catarrh, Pneumonia and Tuberculosis" in the Methodist Church. This is the regular one dollar paid lecture of the course, but it will be given here for a silver offering, so that all may hear it. You may treat a cold with contempt, but it will turn on you and demand your health as the price of your contempt. Every individual may become immune to the common cold. A generous supply of oxygen, a morning cold bath, and a balanced ration will soon make your body armor clad and proof against the common cold.

Man a Hot-House Plant

The chief cause of colds is the fact that we have made hot-house plants out of our bodies. We live without exercise in steam-heated houses, with all fresh air excluded, and with our bodies wrapped in flannels like an Egyptian mummy, and our stomach stuffed like a Christmas turkey or a bologna sausage with the poisons all sealed in our bodies from the lack of scientific bathing, then wonder why we have colds. Under such circumstances a cold is nature's attempt to save your life. She is trying to burn up the poisons in you. This burning of the poisons by a fever is the common cold. Eliminate the poisons through the care of the body and the cold becomes unnecessary. Practically all pulmonary diseases are the result of the common cold. Purely scientific methods for the care of the body for immunity from all pulmonary diseases will be given in the lecture tonight. These will be on a practical basis that may be used by all individuals. Don't miss this lecture. A free lesson for all present Monday night.

High Blood Pressure

The subject of the lecture Tuesday night will be of but little less importance. High blood pressure and the hardening of the arteries is the peril of the business and professional men and women of today. It is wrecking millions of lives before they reach their prime. It is caused by our high pressure life, our excessive food supply, and our lack of scientific exercise. This high pressure life burns out the vital organs. It fills them with poisons so they cannot perform their functions. It fills the arteries and veins with filth, which makes the circulation of the blood impossible. It doubles the work of the heart and the kidneys. It burns out the sewage of the kidneys. It consumes our nervous force and energy and brings nervous prostration. The hardening of the arteries makes the circulation of the blood sluggish. It rots the arteries and the capillaries, so that a little extra strain causes their bursting; if this is in the brain the result is apoplexy and death.

Subject Tuesday, 2:30, "Insomnia or Sleeplessness."

DR. THOMASON TALKS

(Continued from Page 1)

the society, the secretary requested that he resign his membership.

"Eighteen years have seen a tremendous change. The principles which God gave to the Seventh-Day Adventist people in reference to the rational treatment of disease were as true the day they were uttered as they are today. It has remained for science to give the scientific evidence that they are efficient and worthy of adoption. The principles have not always been appreciated as they should have been, yet they are sound."

Dr. Thomason gave a survey of world conditions. He said the death of children resulting from the war is more serious than the loss of men. "The story of Belgium is so sad we hardly dare refer to it," he said. "The picture is so dark that they have drawn the curtain, and it is said no one will be allowed to visit Belgium for a year or two at least. In the Balkan states it is said there is scarcely a child left under 12 years of age. Thousands, and scores of thousands of children have perished from pestilence, hunger and various sorts of suffering. We do not know what is happening in Russia, from the physical standpoint. We receive meagre reports that not only have millions of Russians been slain in battle, but that much blood is still flowing there. We read that Petrograd, a city of 2,000,000 population has been reduced to 700,000, largely through the ravages of typhus, typhoid and cholera, combined with the massacres of the Bolsheviki. The fate of other Russian cities is very similar.

"Following upon the heels of the war, we find the seeds of physical degeneracy still being sown. We find that diseases representing tissue degeneracy are being imposed upon the people,—diseases more significant than the deaths which have occurred in the past from devastating plagues. Perhaps you have heard so much about the influenza that you don't care to hear any more, but I will just say that I was in Washington, D. C., Philadelphia and New York when this epidemic was at its height. It was a most appalling sight. In the various cemeteries I visited the dead were piled in great heaps, awaiting burial. In the Philadelphia morgue box upon box was piled to the ceiling, and besides this, 90 bodies were in the yard. Five soldiers were busy embalming, but could not keep pace with the number brought in. So terrible was the situation that the state issued orders that all bodies be buried within 48 hours or they would be cremated. Relatives removed bodies to the graveyards on pushcarts and wheelbarrows. Our students from Washington Seminary volunteered as nurses, helpers and gravediggers. The Washington newspapers appealed for anybody and everybody who could give a cup of water or smooth a pillow to report to Red Cross headquarters. Many died for lack of the smallest ministrations.

"Washington was so overcrowded, many persons rooming at one place and taking their meals at another, that some of them were dead three or four days before anybody knew they were even sick. Churches were closed. Schools were closed.

"In our institutions one chief thing saved lives during this epidemic— that was our knowledge of rational methods of treatment. The testimony was the same in every place. They would say: 'We have had from 50 to 500 cases, and have only lost one or two cases.' Yet Cook County Hospital in Chicago lost 40 per cent. of their cases. Rational principles, the use of those fomentations which some wished we would not prescribe, with cold rubs, were the means of saving the lives of hundreds and thousands.

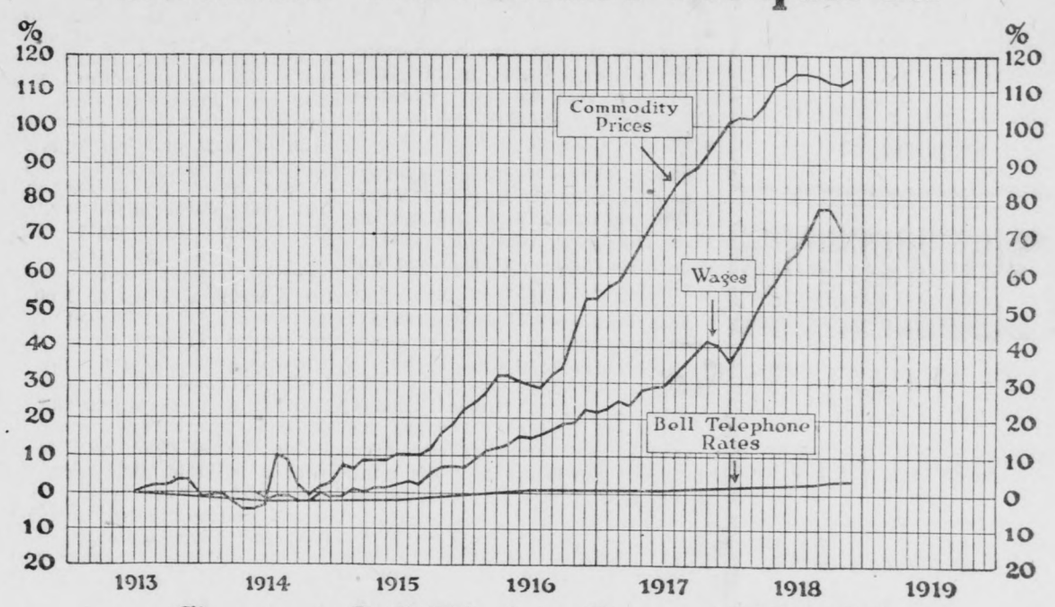
"A few Seventh-Day Adventist nurses from Hinsdale Sanitarium, near Chicago, went to Camp Grant. The wards turned over to them contained some of the sickest soldiers. The nurses began giving simple treatments, the soldiers began to get well, and the mortality diminished. Before our nurses were through with their work there, officers from all parts of the camp came to them to ask what they had been doing for those in their wards, declaring that no such wonderful recoveries had occurred in the camp before.

"This is not the only epidemic which will visit this world. Other opportunities are ahead of us to apply rational principles for the treatment of disease. There is also the opportunity to teach the principles which will prevent degeneracy. You all know the harmful effects of using tobacco, of tea and coffee, of drug taking, and the use of patent medicines. Furthermore, there are in this country 4,000,000 devotees of morphine and cocaine, and they are tremendously on the increase. The war has done more to promote the tobacco habit than anything that ever happened, because the use of tobacco has received the official endorsement of almost everybody. Thirty-nine billion cigarettes were manufactured in America last year. As to the patent medicine evil, the government is so concerned over it that an investigation has been ordered, and a report is soon to be published. It is said that the people of the United States consume more drugs than any other nation on the earth.

"I wish I had language to present this subject as I feel it should be presented. The time has come in the history of Seventh-Day Adventists when we must arise to the world's emergency, when we must help people to understand the principles of healthful living, and the treatment of disease."

High Costs Affect Operation

Greater Revenues Required



Changes in Bell Telephone Rates - 1913 to 1918
Compared with Changes in Wages and Prices

SINCE 1913 there has been a steady increase in the price of all commodities and the products of industry, which has not been reflected in a corresponding increase in telephone rates. In order to meet the past and present high cost of telephone operation, a revenue in just proportion to the expense must be secured.

The reason is simple. The cost of telephone operation has steadily advanced both because of the increased cost of material and the increased living cost of employees. The consumer has realized the necessity of paying more for rent, for food, for clothing and for transportation. The telephone industry has been affected by the same conditions which have produced higher prices in all of the necessities of life.

Between 1913 and 1918, commodity prices advanced 112%, wages advanced 72% and **Bell Telephone rates the country over advanced only 4%.** Adequate rates are needed if the service is to be maintained efficiently and on a comprehensive scale, so as to meet the increasing demands of the public.

This company is operating its telephone property under the direction of the Postmaster General for the United States Government and must secure sufficient revenue to cover the cost of rendering the service.
